## **New uniform postage stamp tariff for the Trading Hub Europe (THE) market area from 1 January 2026**

For the Trading Hub Europe (THE) market area the transmission system operators have determined the uniform tariff from 1 January 2026 on the basis of the Federal Network Agency's (BNetzA) REGENT 2026 decision.

The annual tariff for firm, freely allocable entry and exit capacity will be 7,06 EUR/(kWh/h)/a applicable from 1 January 2026.

Compared to 2025, there is a slightly higher tariff for firm freely allocable entry and exit capacities in the THE market area. The current increase in tariffs can be attributed to a decreased capacity forecast.

### **About FNB Gas:**

FNB Gas e.V. is the association of supra-regional German transmission system operators. Together, its members operate a pipeline network of around 40,000 kilometers for the transport of natural gas and are jointly constructing the hydrogen core network, which is around 9,000 kilometers long. The association supports its members in fulfilling their legal and regulatory obligations. It also coordinates integrated network development planning for gas and hydrogen at transport network level. In addition, the association actively promotes the safe, economical, environmentally friendly and climate-friendly operation of the gas transport infrastructure and its continuous further development to meet the requirements of the future energy system.

The members of the association are: bayernets GmbH, Fluxys TENP GmbH, Ferngas Netzgesellschaft mbH, GASCADE Gastransport GmbH, Gastransport Nord GmbH, Gasunie Deutschland Transport Services GmbH, NaTran Deutschland GmbH, Nowega GmbH, ONTRAS Gastransport GmbH, Open Grid Europe GmbH, terranets bw GmbH and Thyssengas GmbH.
